## Experience

### Flipkart

#### Product Manager

May 2023 – Present

Cleartrip – Flights | Margins & Profitability

- Spearheaded **Tech Losses** charter to eliminate issues & inefficiencies: **improved bottom-line by 10%** within a year
- Led the end-to-end integration with a partner to predict flight fare drops and ticket at a lower price: **improved margins by 2.5%**, while preserving seamless customer experience
- Revamped the roundtrip search experience** to address key user needs: higher selection of flights, flexibility in combining the onward/return flight, improved discount discovery, and offering better fares. GTM - Aug '25
- Led automation of reconciliation process between Airline reports & internal records, to improve financial accuracy

### Kuku FM

#### Product Manager

Nov 2020 – Mar 2023

Led product monetization for Kuku FM audiobooks & stories app. Scaled from **1k to 1M paid subscribers in 18 Months**

- Achieved a **12x increase in conversion** with features, experiments, price packaging, and continuously improving all steps of the funnel: acquisition, onboarding, search, discovery, activation, paywall, subscription page, & payment
- Implemented discounting infrastructure for experiments, cohort discounting & sales - **>2x conversion improvement**
- Built the influencer marketing channel experience for both users (content recommendation, discounting) as well as campaign delivery management (programming, attribution), bringing in **over 25% of subscribers**
- Creator & custodian of many **platforms/tools** like Content Experimentation (A/B test posters, audio & titles), CMS, Sales, Campaign Management, Coupons, & Revenue Share - serving **10k+ creators & teammates**

### Unthinkable Solutions

#### Product Manager

Jul 2020 – Nov 2020

Led the design of a Resource Management tool for managing project assignments, checking resource availability, and tracking utilization.

### Swiggy

#### Business Analyst

Dec 2017 – Jan 2020

Led multiple initiatives at Swiggy (food delivery, quick commerce) to curb delivery partner, user, & restaurant fraud. Deep dives into what drives bad ratings & cancellations. Data Instrumentation of products like chatbots & on-demand delivery

- Instamart (hyperlocal): Defined the **schemas, fact tables, and key KPIs; built dashboards** to track them
- Built an anomaly detector to **identify restaurant fraud & abuse**. Curbed multiple accounts fraud by setting up login limits - **saving over 15M INR annually**

### Analytics Quotient (Kantar)

#### Business Analyst

Aug 2016 – Dec 2017

Data analytics, eliciting client requirements, creating roadmaps & delivery plans, and communicating insights.

**Back-end engineering** - Writing SQL procedures for web-based dashboards

- Led the development of a financial dashboard (visualize stock trends, schedule report) & a resource management tool

### NIT Raipur

#### Game Designer (Internship)

Apr 2015 – May 2015

- Created a **windows puzzle game** where players align similar colored marbles in minimum moves to attain a score
- Responsible for **end-to-end development** from early sketches to the finished game: Wireframing, game logic, coding, user input, designing textures, level design, prototyping, and delivery
- Project link: [github.com/amittharani/marbellous-sfml](https://github.com/amittharani/marbellous-sfml) Teaser: [youtube.com/watch?v=cLdF7otQXpo](https://youtube.com/watch?v=cLdF7otQXpo)

## Education
